

MIDIpar Update, June 2022

One board Magnet Driver Systems

MIDIpar 8 or 8L.....	\$50.00
MIDIpar 16 or 16L.....	\$60.00
MIDIpar 24 or 24L....3" X 6".....	\$66.00
MIDIpar 32L....3" X 7.25"...or short.....	\$74.00
MIDIpar 48.....3" X 10".....	\$86.00
MIDIpar 64....3" X 7".....	\$98.00
MIDIpar 64L....3" X 12".....	\$98.00
MIDIpar 72L....3" X 13.25".....	\$114.00
MIDIpar 80....3" X 8.375".....	\$134.00
MIDIpar 96....3" X 9.675".....	\$152.00
MIDIpar 128...3" X 12".....	\$190.00

Data expansion port on all versions to extend by smaller increments or to full 128 note capability with regular MIDIpar modular boards, available in 8, 16, 24 and 32 notes. Six wire jumper cables made to order. The 16L, 24L, 32L, 48L, 64L and 72L have data out sockets to accept extension boards.

The boards are equipped with rising clamp wire terminals. Each board has a MIDI IN and MIDI Thru standard 5 pin DIN connector. Notes can be configured to any order on any channel or channels. The MIDI Thru can be chained to additional boards to expand beyond the 128 notes or provide

access to duplicate notes on the same channel. (Additional boards can be programmed to the same channel as other boards.)

A jumper is provided to send system power on two unused wires in the MIDI cable which can be used to power a SD MIDI Reader player through the MIDI cable. SD MIDI Reader.....\$195.00

Medium current, high current and high voltage modular boards are available in the original MIDIpar Modular design. Custom designs gladly discussed.

Design and prices subject to change. All orders plus shipping and handling.

June 2022 Modular Board Prices:

Controller Card.....\$38.50

Driver cards, 500 mA, ULN2803a chips:

MIDIpar 8 note extension board.....\$12.50

MIDIpar 16 note extension board.....\$22.50

MIDIpar 24 note extension board.....\$32.50

MIDIpar 32 note extension board.....\$42.50

MIDIpar 64 note extension board.....\$58.50

Medium Current driver boards, 1.5 A, ULN2069:

MC MIDIpar 8 note boards.....\$17.50

MC MIDIpar 16 note boards.....\$30.50

MC MIDIpar 24 note boards.....\$44.50

MC MIDIpar 32 note boards.....\$56.50

High Current and High Voltage driver boards, price on request.

Source (output +) coil common negative, add 20%

Source boards available as L-32, L-64, 8 & 32 note extensions. Other configurations available on request.

Accessories:

Flip, Flip-Flop, Lock and Cancel, Tremolo on request.

Capture Boards, on request.

Postage, shipping and handling at current rates.
